#### SPECIAL PROVISIONS

# SPECIAL #1 TESTING AND ACCEPTANCE OF GRANULAR 'A'

# FIELD SAMPLING

At the request of the Joly Road Foreman (or authorized designate) the Contractor shall be responsible for field sampling in the presence of the Road Foreman. The lot size has been predetermined to be <u>500m³</u>. Four (4) samples for testing shall be required. Time samples will be taken at the discretion of the Road Foreman.

# **TESTING**

At the request of the Corporation of the Township of Joly, the Contractor will be responsible for all costs related to transportation and testing of samples at a designated Laboratory (Muskoka District). Testing will be delivered to the Laboratory by the Township of Joly Road Foreman. Sieve analysis, (gradation requirements) and percent crushed tests will be performed.

# **ACCEPTANCE REQUIREMENTS**

When either the gradation or the percent crushed particles is not within the specification requirements, an adjusted payment will be allowed at the request of the contractor in lieu of removal, except where a non-conformance is so great that the material is totally unacceptable.

# **PAYMENT ADJUSTMENT GUIDELINES**

Payment adjustment for non-conforming material will be applied as a percentage of the unit price. Material that requires an adjustment in excess of 25% is considered non-conforming and is not acceptable under this contract.

# <u>NOTE</u>

The contractor may at his discretion have tests performed on the product during production to ensure that an acceptable product is being produced.

# SPECIAL PROVISION #1 - Cont'd

# Percent Crushed Acceptance

A complete lot of Granular A shall be deemed to meet the specification requirements for percent crushed particles if the mean of the test results is equal to or greater than 50%.

# Adjusted Payment

Complete lots which do not meet the specification requirements, and which are not subject to removal, will be subject to a reduced payment.

The reduction will be a product of:

Lot quantity x price x total payment adjustment.

The <u>total payment adjustment</u> shall be equal to the sum of adjustment point determined as follows:

- Adjustment points shall be applied for each 0.1 percent that the mean gradation falls outside the specified limits
- 0.1 adjustment points shall be applied for each 0.1 percent that the range exceeds the maximum acceptable range for each sieve (Table I).
- 0.5 adjustment points shall be applied for Granular A or M for each 0.1 percent that they lot mean falls below the 50% limit for percent crushed.
