Generally, such individuals, groups or agencies may include qualified provincial assessors and independent real estate brokers or agents;

If it would not be practical or economical to obtain an Appraisal as determined by the Clerk, or designate, or a minimum sale price has been approved by Council, then an Appraisal will not be required.

Additionally, Contents Part 3 outlines classes of Lands which are exempt from an appraisal to determine Fair Market Value.

15. Municipal Tax Sales

Lands sold under the Municipal Tax Sales Rules established under Ontario Regulation 181/03 and form part of the Municipal Act, 2001. C.25 shall include lands vested in the Township by the registration of a Notice of vesting in accordance with the Municipal Tax Sales Rules, and such lands may be sold by the Township within one year from the date of registration of the Notice of vesting without an appraisal, by means of direct sale, request for proposal or tender, without declaring the lands surplus or giving additional notice to the public from that of the Tax registration advertising.

15.1 Tax Sale Vesting

The primary legislative provisions relating to the vesting of unsuccessful tax sale property are set below:

- The Municipal Act provides for a two-year period for municipalities to make a decision to vest a property in the name of the municipality after an unsuccessful tax sale.
- The Environmental Protection Act provides a five-year period of limited protection from environmental orders for municipalities that vest contamination property as a result of tax sale proceedings.

The Township of Joly Council has three options to consider in the event that vesting is not recommended:

1. To write-off a portion of the tax arrears deemed uncollectable and re-advertise at a lower amount to attract bids.
2. Re-advertise with no change in the amounts owing.
3. Immediately remove the tax arrears certificate without waiting the two years.

If vesting is recommended, a review/inspection of the property is to be undertaken by the relevant department and associated consultants, if required, to identify possible deficiencies such as property standards, tenants, liens on title etc... and this could also include an environmental pre-screening in instances in where past contamination is suspected.

16. Road/Lane Allowance Closures and Sale

Consideration for the sale of the whole or part of a highway, road, laneway or shoreline allowance shall include the requirements of Notice as outlined in Section 12 of this Policy and a report, with recommendations and resolution or by-law, will be prepared for Council consideration.

The selling price for the disposal of the whole or part of highways, roads, laneways or shoreline allowances offered to abutting owners will be based on the generic appraisal as outlined in Section 10.

In those instances where the allowance is deemed to meet building lot specifications under the Township's zoning by-law, it shall be disposed of in accordance with Section 10.

17. Responsibility and Implementation

17.1 Council is responsible for approving this Policy.

17.2 The Municipal Administrator/Clerk or designate is responsible for:

- i. Directing compliance and resolving any conflicts with this Policy;
- ii. Assigning appropriate departments for administration of this Policy, as required;
- iii. Establishing procedural guidelines;
